BUBBLES THE BEAR

INSTRUCTIONS

Paint the outside of the bowls with the multi-purpose paint. For the 3.5" bowl, paint the bottom of the bowl too. Let paint dry.

From brown foamie, trace and cut out pieces according to the patterns.

Turn the 3.5" bowl upside down and place on top of the 5.5" bowl to create the bear. Place the ears on top of the head and glue in place. Glue the eyes on the front of the bowl. Glue the black pom pom in the center under the eyes for the nose.

Make a four loop bow with the ribbon, like a cheerleader hair bow. Glue to the top of the head between the ears.

Use the pictured sample as a guide and place the paws on the body and glue in place. Trim the flower stem shorter if needed and place between the paws. Glue in place.

Use as a centerpiece, fill with treats if desired.
